EDUCATION

Bachelor of Engineering in Computer Science, Thakur College of Engineering & Technology *June 2023*
CGPA: 9.8/10

Higher Secondary Education (HSC), Maharashtra Board *March 2019*
Percentage: 86.15%

Secondary School Certificate (SSC), Maharashtra Board *March 2017*
Percentage: 87.20%

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, C++, Python
Frameworks	Spring Boot, MERN Stack (MongoDB, Express, React, Node.js), Angular
Tools	Git, VS Code, IntelliJ, Android Studio
Databases	SQL, MongoDB, Firebase

PROFESSIONAL EXPERIENCE

Senior Software Developer, Quesst Corp, Mumbai, India *June 2025 - Present*

- Leading the full-stack development of the Global Research Portal (GRP) using React and Spring Boot, managing both frontend and backend components to deliver robust, scalable features.
- Collaborating with cross-functional teams to convert business requirements into technical solutions, ensuring smooth integration, maintainability, and performance optimization across the platform.
- Actively involved in architectural discussions, technical planning, and the entire software development lifecycle, from requirement analysis to deployment and support.

Java Full Stack Developer, Kotak Life, Mumbai, India *May 2023 - June 2025*

- Contributed to the development of the Optimus Portal, an omni-channel solution for policy sales, utilizing React, TypeScript, Node.js, Spring Boot, and MongoDB.
- Played a key role in building the Where-Am-I Portal, an internal tracking platform, managing both front-end and back-end (Node.js) with technologies like JWT, Redis, and Express.js.
- Collaborated with cross-functional teams to design and implement scalable microservice architecture for optimal performance and efficiency.

INTERNSHIP

Kotak Life *Dec - May 2023*
Java Full Stack Developer *Out-house*

Growffitter *Jan - May 2022*
Backend Developer *Out-house*

CERTIFICATIONS

- Certified in Node.js Development
- Certified in Programming Fundamentals (C/Python)

ACHIEVEMENTS
